

Introducing the Black Rat® range of 4WD Recovery and Recreational Equipment to Australia. Black Rat® products have been designed with the 4WD enthusiast in mind. Our aim is to supply a product you can rely on when in trouble out in the bush.

Black Rat® products have been designed with the 4WD enthusiast in mind. Our aim is to supply a product you can rely on when in trouble out in the bush, All our range is tested to the Australian Standards where applicable with full back up of spare parts, plus full test and repair facilities on a National basis.

### BLACK RAT 4WD 2 TONNE CABLE PULLER

This lightweight multi-purpose wire rope puller is a great asset when off-road. It has all-steel construction with drop forged hooks complete with safety latches. One hook has a built in sheave block for ease of recovery. It comes with 1.5 metres of 5mm galvanized wire rope with a 2 tonne pulling capacity.

Code	Description
341002B	2 Tonne Cable Puller c/w 1.5m wire rope

### 4WD G-70 Combo Drag Chain Kit.

This is one of the products most used with 4WD vehicles. To give you the full range of uses, Black Rat supplies three fittings - lug link, grab hook and slip hook complete with chain in a handy bucket. The chain kit is 5 metres long, manufactured from Grade 70 high tensile steel. It has a breaking strain of 8,000kgs.

Code	Description
412007BK	5m x 7mm with Lug Link, Grab & Slip Hooks
412008BK	5m x 8mm with Lug Link, Grab & Slip Hooks
412010BK	5m x 10mm with Lug Link, Grab & Slip Hooks

### BLACKRAT 4WD OFF ROAD BLOCK

The Black Rat 4WD off-road block has heavy duty one piece steel side covers for ease of use and have a gold passivated finish. The sheave is made from high grade cast Iron with a precision machined groove to accept 11mm wire rope with a pressure grease lubricated bearing. Minimum breaking strain 8,000kgs.

Code	Description
514125B	Off Road Block with Carry Bag

We Gladly Accept

## BLACKRAT 4WD RATED BOW SHACKLES

When you need to ensure reliability, use our high tensile body, alloy pin rated Bow Shackles. These shackles are individually tested and stamped with the working load limit for safety and conform to Australian Standard AS2741. Common sizes are 4.7 tonne and 3.2 tonne with a full range of sizes available

Code	Description
342216B	16 x 19mm 3.2t W.L.L Capacity
342219B	19 x 22mm 4.7t W.L.L Capacity

## BLACKRAT 4WD RECOVERER HOIST C/w Wire Rope

This lightweight yet robust steel hoist is simple and safe to use for all your recovery needs. These units come in 800kg and 1600kg capacities with 20 metres of wire rope, end hook, extendable handle, spare shear pins and wire rope reel.

Code	Description
519508B	800Kg Capacity, supplied with 20 metres of 8mm wire rope, c/w safety hook.
519516B	1600Kg Capacity, supplied with 20 metres of 11mm wire rope, c/w safety hook.

## BLACKRAT 4WD SECURITY CHAIN KIT AND BAG

With so many trailers and motorbikes being stolen, we felt a high quality security chain was a necessity. This chain is fully case hardened with a square link to discourage the use of bolt cutters. The padlock body is specifically designed to prevent hacksaws, bolt cutters, files, etc. being used to infiltrate the lock. The body is manufactured from case hardened anti-drill material. This kit comes with a 1.8 metre long chain, complete with lock keys and a handy carry bag.

Code	Description
153918BK	Chain C/w Lock & Key

## BLACKRAT 4WD TOWING HOOK ASSEMBLY

This handy accessory on your vehicle allows easy coupling of recovery equipment. These hooks are manufactured from forged steel and come in black or chrome finish with nuts and bolts to suit standard tow bars.

Code	Description
519501B	Towing Hook Assembly (Black)
519502B	Towing Hook Assembly (Chrome)

We Gladly Accept
