

Post and Rail - Heavy Duty

Specifications

Description:	Modular Post & Rail system.
Material:	Posts - 90mm diameter, 5mm wall, 1050 high. Rails- 97 x 42mm tube, 2.5mm wall.
Finish:	Safety yellow powder coat.
Height:	Post height- 1050mm Rail centres- 500mm
Rail lengths:	2, 3, or 6 metres.
Weight:	Posts- 9kg Rails- 4.25kg / metre.
Installation:	4 x 12mm masonry anchors per post.

PART No.	DESCRIPTION
PR906K-SM	6m Post and Rail Surface mount kit (3x surface mount posts, 2x 6m rails)
PR906K-BG	6m Post and Rail In-ground kit (3x In-ground posts, 2x 6m rails)
PR903K-SM	3m Post and Rail Surface mount kit (2x surface mount posts, 2x 3m rails)
PR903K-BG	3m Post and Rail In-ground kit (2x In-ground posts, 2x 3m rails)
PR902K-SM	2m Post and Rail Surface mount kit (2x surface mount posts, 2x 2m rails)
PR902K-BG	2m Post and Rail In-ground kit (2x In-ground posts, 2x 2m rails)
PR90SMD	Surface mount post -double rail version
PR90BGD	In-ground post -double rail version
PR906	6 metre rail (replacement)
PR903	3 metre rail (replacement)
PR902	2 metre rail (replacement)

Value Features

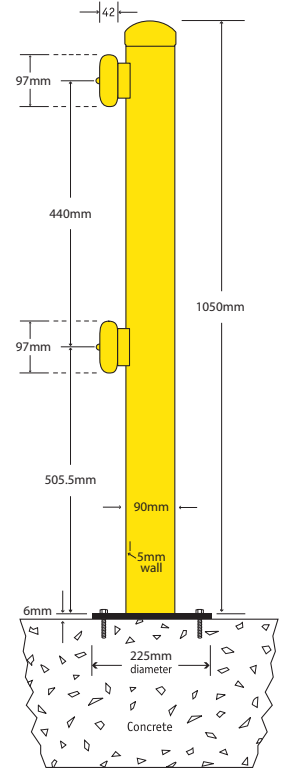

- * Super strong 90mm diameter. Posts with 5mm thick walls.
- * 6mm thick base plates with 4 bolt fixing.
- * Powder coated finish.

- * Sculptured hand rails in a range of lengths.
- * Suitable on slopes or ramps.

Post & Rail is a modular barrier system for use in car parks, factories, shopping centres, etc. or anywhere vehicles and pedestrians need to be segregated. Surface mount posts are 1050 high. Rails are available in 2, 3, or 6 metre lengths.

The modular design of 'Post & Rail' ensures barriers can be quickly erected with a minimum of disruption. Suitable for either flat or sloping surfaces.

Econo-rail - Standard Duty

Econo-rail is a flexible and economical pedestrian control system that is simple to install.

It consists of surface mount posts and rails in 1, 1.5 or 2 metre lengths. Rails can be cut to length and the system comes complete with connectors and fixings.

Ideal where an attractive and practical solution is required to control the movement of pedestrians.

Specifications

Description:	Modular economy posts & rail system.
Material:	Posts - 63.5mm diameter, 1.6mm wall, 1050 high. Rails- 31 x 59mm oval galvanised tube with 1.6mm wall.
Finish:	Safety yellow powder coat.
Height:	Post height- 1050mm
Rail lengths:	1, 1.5, or 2 metres.
Weight:	Posts- 4kg Rails- 2kg / metre.
Installation:	3 off 10 x 50mm masonry anchors per post.

PART No.	DESCRIPTION
ER63-SM	Surface mount post.
ER631	1 metre rail with connectors.
ER6315	1.5 metre rail with connectors.
ER632	2 metre rail with connectors.

Value Features

- * Powder coated rails available in three standard length or can be cut down on site.
- * Comes with all fittings and fixtures.
- * Rails can come off posts at any angle for changes in direction using our unique post to rail adapters.
- * High visibility safety yellow powder coated finish.
- * Can be custom powder coated, if required (May incur extra costs).
