

RuXXac Compact Folding Hand Trucks

1. Extremely Space Saving: When folded Ruxxac Business Hand Truck Carts are only 55mm thick.

2. Very Quick to Fold and Unfold: Ruxxac Business toe plate and wheels release out into position together, the next step is release the handle lock clips and pivot the handle up and down, these also lock the handle into position.

3. 125kg Maximum Weight Load Capacity: Possible due to the perfect combination of special synthetic material, aluminium and steel tubes.

4. Ergonomically Designed Handles: Made of synthetic material the carrying of your load is made easier than ever.

5. Secure Transport: No matter whether the load is round or angular, big or small: With this unique system consisting of anchor bar and elastic fastening strap every load can be secured safely to the trolley.

6. Puncture Safe Tyres: 200x40mm Diameter Polymer Puncture Resistant Wheels with roller bearings combines the advantages of pneumatic and solid rubber tyres, the Ruxxac Business Folding Trolley has no problems up and down gutters and stairs, gravel or smooth surfaces. The Ruxxac Hand Truck is your answer.

7. Spare Parts and Servicing Available: We carry a complete range of spare parts including Toe plates, Frames, Handles, Clips and Sprockets, Nuts and Bolts that we can supply after sale. As with any mechanical item these trolleys will need to be checked periodically. R.J. Cox Engineering can provide servicing & repairs to you trolley after sale as required.

8. Warranty: All RuXXac carts carry a 5 Year manufacturers Warranty, this does not cover misuse or abuse.
